FEEDBACK PROCESS

The institution has a well-formulated feedback monitoring system. The institution defines the dates for student feedback in the calendar of events (C O E). The feedback is taken twice in a semester. Department prepares the format and will be distributed to all students in the class. The feedback forms are collected from the students and analysis is completed. Course wise marks are taken and percentage is calculated for number of students who have given feedback. Faculty wise analysis report is prepared. HOD conducts the meeting on one to one basis with all faculty, discuss related to the action plan and any other improvement to be incorporated. The analysis report is given to faculty and if required the faculty is asked to submit the plan in writing. The same is also discussed with the Principal. The feedback about the faculty is also compared with the previous or succeeding semesters for information and to discuss if there are any serious problems.
