Various career guidance programs by industry professionals

Self-Brand Building

Profile Building & self brand building guidance

100%

Assured Placements

Assured placements for all eligible students

SUCCESSFUL ALUMNI

The college provided us the perfect platform to pursue our hobbies and interests and in return gave me proper recognition of our talent. The college organized various pre-placement programmes for each and every student to crack the jobs – during campus placements.
I am thankful for being a part of Cambridge institute of Technology

Ashir P.N.P
Co- Founder & Managing Partner
Expedite Automation LLP
Alumni, EEE Dept.

Srividya Mudgal
Working in Cognizant
Alumni, ECE Dept

The placement cell plays a pivotal role by exposing us to the external world and bringing in the companies. I am very grateful for providing different workshops and classes on languages like C++, Data Structures, Python and Java which helped us to prepare for placements and manage academics as well.

Kevin Daniel
7th semester
CSE department

TPO has been a great blessing to be a part of Cambridge Institute of Technology to enable all the students to embark on their Dream jobs. International placements in reputed companies opened the gates of my career, which I achieved through effective guidelines and stringent Training.

I'm currently pursuing my 4th year of ISE at CIT, Bangalore. It offers a unique combination of learning and self-development, which has helped move from a student phase to an employee phase. I want to thank my placement department for the smooth onboarding process and the constant support.
