K R Puram, Bangalore - 560036

## Cambrian House Of Student Start-ups, Entrepreneurship, and Innovation

A voice controlled smart wheelchair which can self navigate to a particular destination as the user desires. It uses AI/ML to figure out where the user wants to go and then maps a route to it and follows it. It saves most visited routes for easy navigation. It also locally stores the map of the house of the user with all the rooms labeled so that when the user wants to go to a particular room the user can just say the name of the room and the wheelchair would take to that room.

### TEAM MEMBERS:

Akanksha – 1CD19CS013 (7<sup>th</sup> Sem CSE)

K V Kaushik- 1CD19CS068 (7<sup>th</sup> Sem CSE)

Shubham Kumar – 1CD19CS158 (7<sup>th</sup> Sem CSE)

Vishal Prajapathi – 1CD19CS194 (7<sup>th</sup> Sem CSE)
