## CIT Task Force: R & D Proposal Team

The Task Force for R&D Proposal at CIT (Cambridge Institute of Technology) is in charge of spearheading the institution's research and development activities. They are charged with the critical role of designing, creating, and presenting novel and effective research proposals as a devoted team. The team engages with academics, researchers, and stakeholders to design proposals that match with the institution's strategic goals and fulfill societal needs, with a focus on identifying new issues and opportunities. The CIT Task Force for R&D Proposal plays a critical role in gaining financing, advancing cutting-edge research programs, and reinforcing the institute's image as a premier center of academic and technological excellence by combining their knowledge, creativity, and strategic thinking. The task force members are:
